- Hard disk in a solid state (SSD)
- Customer display which can be integrated (optional)
- 8.4" or 9.7" 2nd customer display which can be integrated (optional)
- Sturdy aluminium case
- Fanless version available
- Available in black and white colors

### MAIN FEATURES AND PERFORMANCE

- Pine View D525 1.8Ghz (L2 cache 1MB, Dual Core, 13W) processor, Fanless for Vision15 or Pentium G620 2.6Ghz (L2 cache 3MB, 65W) for Vision15 Turbo version
- 2 GB DDR3 SO-DIMM (Max 4 GB) for Vision15; 2 GB DDR3 Long-DIMM (Max 8 GB) for Vision15 Turbo
- Hard disk 1 x 2.5" SATA SSD 32 GB
- 15" Backlit LCD Display(250 nits, 1024x768, MTBF 40000 hrs)
- 15" true flat Touch Screen 5 wires resistive (zero bezel)
- 4 USB 2.0,
- 4 Serials RS232 on RJ45 (COM3 & COM4 power supply 5V/12V)
- 1 Parallel
- 1 Eth 1GB LAN
- 1 external VGA
- 1 DC Jack
- 1 R,J-11 Cash Drawer (12V/24V),
- 1 Line-out
- Audio 2 x 2 Watt internal speakers
- External power supply DC 90W for Vision15 and DC 120W for Vision15 Turbo
- Size (printer not included): 361mm (L)x248mm (P)x337mm

**VISION15** expresses the highest level of innovation, reliability and performance to answer to the most demanding requests of the retail market.

Designed with the maximum attention to guarantee to the point of sales the best compromise between technology and design, **VISION15** is the ideal solution for all the retailers who use the most advanced management software.

The attention in the aesthetic details, such as the true flat touch screen monitor and the modern lines which characterize its shapes, perfectly combines itself with the sturdiness and the reliability guaranteed by the aluminium case and by the use of the most powerful industrial processors available nowadays. Besides, the operative efficiency is guaranteed by the SSD (Solid State Drive) technology of the hard disk which matches high performance with low energy consumption. The resistive touch screen monitor has a slope up to 90° allowing the most correct use according to the point of sale height and lighting.

Available as accessories a backlit 20x2 LCD display or as an alternative an 8.4" or 9.7" VGA monitor ideal for the multimedia communication to the customer. As operator and/or customer identification accessory is available a triple track badge reader.

Available in two versions:

- **VISION15** Pine View Dual Core 1.8Ghz processor
- **VISION15 TURBO** Pentium G260 2.6Ghz processor on Sandy Bridge architecture for the management systems which require big calculation resources
