## Wide range of use

Retail and HoReCa

Health Care

Industry

Self-service

High industrial quality and wide range of use make the Uniq PC a unique solution for your business. The Uniq PC is primarily intended for retail, public and private institutions. It is ideal for the medical sector with high demands on air quality and sterile environment as a substitute for imaging devices, optical and computing

equipment. Wide possibilities of use can be found in production managing processes at demanding and difficult conditions with simple, intuitive and swift equipment handling. Uniq PC is available in several color versions with any logos on request.

Uniq PC is an ultra slim panel PC with a LCD monitor and touch panel. One of the slimmest all-in-one solution is hidden in the original design that offers high-tech features. 15" TFT display has the most widely used resolution 1024 x 768 dpi.

Uniq PC brings a maximum benefit at the minimum maintenance rate. The resistant aluminium housing is without any opening, rotating or moving parts because of the unique passive cooling system. Uniq PC operation is absolutely noiseless and its lifetime is several times higher in comparison with common PC systems.

Enclosed compact design of Uniq PC with IP65 of front panel and IP54 whole device gives a splash water and dust protection. Uniq PC is practically maintenance free system and can be easily cleaned with a wet cloth and antibacterial detergents.

Uniq PC is a totally flexible solution. Intel Atom processor offer incomparable combination of low energy consumption and high performance. This processor is fully compatible with Windows XP, Windows XP Embedded, Windows 7 or Linux.

Compact attachment and revolutionary Uniq PC design offers bigger space and better ergonomic working place. Modern and adjustable stands allow your very own positioning of Uniq PC. There are more ways of mounting by table/wall stand, tube holder or standard VESA mount.

## Technical parameters

LCD panel technology	TFT
LCD panel size	15"
LCD panel resolution	1024 x 768
LCD panel aspect ration	4:3
CPU	Intel Atom N270 1.6 Ghz
RAM	512 MB (1 GB and 2 GB optional)
Operating system	Windows XP, XP Embedded, Windows 7, Windows Vista, Linux
Touch panel (optional)	resistive / capacitive / capacitive vandalproof
Interfaces*	3 x USB, LAN, WiFi (optional), Bluetooth (optional), VGA (optional), serial port (optional), audio (optional)
Storage	2,5" HDD 160 - 500 GB, SSD (optional)
External monitor interface	YES, by port replicator (optional)
External monitor resolution	1024 x 768 (800 x 600)
Power requirements	adapter AC/DC 230 V - 12V, 4000 mA
Power consumption	30 W
Mounting	table stand, wall stand, tube holder (optional), VESA 100 (optional)
Dimensions	(W x H x D) 351 x 350 x 141 mm
Display thickness	39 mm (48 mm - vandalproof display)
Weight	4 kg (without stand)
Construction and protection	IP65 - front panel, IP54 - whole device, waterproof and dustproof, (antibacterial coating - optional)

\* interface depend on the type of port replicator
